A Revolutionary New Guide to Legal Research for Laypersons and Students!

Features substantive reviews that provide critical background information to a lay audience about the nature of the law in 85 specialty areas, from administrative law to zoning.

Each legal specialty is accompanied by an introductory overview, an explanation of the law by which it is governed, and links to relevant websites.

Reviews of 800 recommended titles of particular interest to a lay audience, both general and subject-specific. Relative pricing of both print and Kindle formats is included for those who wish to acquire them.

Explains the law to laypersons in clear and non-technical language.

With no previous legal background, the reader will be able to find resources to answer their most frequently asked legal questions, including:

- How do I handle my own divorce?
- How do I contest my real estate assessment?
- How can I help my heirs avoid probate?
- What are my rights as a tenant? As a landlord?
- What happens if my aunt dies without a will?
- How can I patent my invention?
- How do I contest a traffic ticket?
- How can I legally change my name?
- How do I start a small business?
- How can I take a business owner to small claims court?
- How can I mediate a property line dispute with my neighbor?

These and many other legal matters can be handled without hiring a lawyer, or make you better prepared if you do choose to engage a lawyer. This book will lead you to sources of expert advice on doing just that, and saving money in the process.

An essential guide to legal self-help literature by a leading authority in the field. Author Kendall Svengalis brings more than forty years experience as a professional law librarian, twenty-two of these as author and publisher of the Legal Information Buyer’s Guide & Reference Manual, the nation’s leading consumer guide to legal information, and winner of the Connie E. Bolden Significant Publications Award and Joseph L. Andrews Bibliographical Award.
